Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

DETAILED ACTION

1. This office action is responsive to communication filed October 1, 2008.

Response to Amendment

2. The amendment submitted on October 1, 2008 will not be entered because it would require further search and/or consideration. For instance, the amended claim 1 recites that the first lens housing can be rotated about a first rotating axis extending in a direction perpendicular to the base of the cylinder. This limitation changes the scope of claim 1, and would thus necessitate further search and/or consideration.
